1. The Response to Final Office Action filed on 09/25/2006 has been entered.

Claims 1-12 are pending in this Office action.

### ***Response to Arguments***

2. Applicant's arguments, see pages 9-12, filed on 09/25/2006, with respect to claims 1-5 and 8-10 have been fully considered and are persuasive. The rejection of claims 1-5 and 8-10 has been withdrawn.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

3. Regarding claims 1, 5, 8 and 10, claims are allowable over Hammons, Jr. et al. and Bevan et al. after Applicants correctly point out in the Remarks (pages 10-12) that frequency selectivity of the channels has led the Applicants to the design of the multi-layered structure of the invention which allows one to compensate for a lower diversity order of the space-time codes being used. In view of the foregoing, Applicants presented that the language "through a frequency selective channel," is not an intended use as the Examiner contends, but rather that it is a fundamental characteristic of the presently-claimed methods recited in claims 1, 5, 8 and 10. In light of that Applicants' arguments, the combination of Hammons, Jr. et al. and Bevan et al., taken individually or in combination, fail to render the claimed invention obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
